WHAT'S NEW

New Design: Form 760PY has been redesigned for 2010. This redesign makes the form easier for taxpayers to complete and for the Department to process. The Schedule NPY has been eliminated and there are two new schedules for part-year filers. The Virginia Schedule of Income should be completed by all part-year filers. This schedule contains the schedule of income distribution, prorated exemption worksheet and moving information. The Schedule 760PY ADJ is used to report additions, subtractions, deductions, the low income credit, adjustments and contributions.

Advancement of Virginia's Fixed Date Conformity with the Internal Revenue Code: Virginia's date of conformity with the Internal Revenue Code (IRC) was advanced from December 31, 2008, to January 22, 2010. The 30% and 50% bonus depreciation allowance for certain assets under the IRC and the 5-year net operating loss (NOL) carry back allowed for net operating losses generated in taxable year 2008 or 2009 are still not allowed. Additional fixed date conformity adjustments may be required for Cancellation of Debt Income under IRC § 108(i), and the domestic production deductions under IRC § 199. At the time these instructions went to print, the only required adjustments for "fixed date conformity" were those mentioned above. However, if federal legislation is enacted that results in changes to the Internal Revenue Code for the 2010 taxable year, taxpayers may be required to make adjustments to their Virginia returns that are not described in the instruction booklet. Information about any such adjustments will be posted on the Department's website at www.tax.virginia.gov.

Major Business Facility Job Credit: Beginning in January 2010, the number of qualified full-time jobs needed to qualify for the Major Business Facility Job Tax Credit is reduced from 100 to 50. The number of qualified full-time jobs needed to qualify for the Major Business Facility Job Tax Credit in economically

distressed areas or enterprise zones is reduced from 50 to 25. The credit may still be claimed over two years instead of three through December 31, 2012 and is only applicable for qualified full-time employees hired on or after January 1, 2010.

Land Preservation Credit: The amount of Land Preservation Credits that may be claimed on income tax returns has been reduced from \$100,000 per taxpayer to \$50,000 per taxpayer effective for credits claimed for taxable years beginning on and after January 1, 2009, but before January 1, 2012. The carryover period has been extended for two or three years, depending on the taxable year of the limitation. This reduction in the amount of credit that can be claimed on the return does not reduce the amount of credit that may be earned or held by the taxpayer.

Community of Opportunity Credit: Beginning with the 2010 taxable year, individual and corporate landlords who participate in a housing choice voucher program are allowed a credit equal to 10% of the fair market value of the rent for each qualified housing unit.

Green Jobs Creation Credit: Beginning with the 2010 taxable year, certain corporate and individual employers are allowed an income tax credit for certain new "green jobs" that are created in Virginia by the taxpayer.

For more information on these new credits, visit us at www.tax.virginia.gov.

Capital Gains Exemption for Technology Businesses: Beginning with taxable year 2011, taxpayers may subtract capital gains income related to certain investments made beginning in 2010. For further information, go to www.technology.virginia.gov/CapitalGains/ or call Cameron Kilberg, Assistant Secretary of Technology and Senior Policy Advisor at (804) 786-0226.

For details, request the Virginia Taxpayer Bill of Rights publication. This brochure is available from any of the locations listed above for obtaining forms.

GENERAL INFORMATION

Estimated Income Tax Filing

If you did not have enough income tax withheld, you may need to pay estimated income tax. Generally, you are required to make payments of estimated income tax if your estimated Virginia tax liability exceeds your Virginia withholding and other tax credits by more than \$150.

To make estimated tax payments, file Form 760ES or visit www.tax.virginia.gov.

If you owe a large amount of tax, you may need to increase the amount of tax withheld or make estimated tax payments during the year.

You may be penalized if you underpaid your estimated tax or did not have enough tax withheld.

Civil And Criminal Penalties

The civil penalty for filing a false or fraudulent return or for failing or refusing to file any return with intent to evade the tax, is an additional penalty of 100% of the correct tax.

Any individual who willfully fails or refuses to file a return, at the time or times required by law, shall be guilty of a Class 1 misdemeanor. In addition, an individual who makes any false statements on a return, with intent to defraud the Commonwealth, shall be guilty of a Class 6 felony.

Amended Return Filing

When to File

If you file an amended federal return reflecting a change in your taxable income or any other amount that would affect the Virginia return, you must file an amended Virginia tax return within one year. In addition, if you file an amended return with any other state that results in a change that would affect your Virginia income tax, you must file an amended Virginia tax return within one year.

If the change reduces the tax, the Department of Taxation by law may issue a refund only if the amended return is filed within:

- three years from the due date of the original return, including valid filing extensions;
- one year from the final determination of the amended federal return or federal change, whichever is later, provided that the allowable refund is not more than the decrease in Virginia tax attributable to the federal change or correction;
- one year from the final determination of the amended return of any other state or change or correction in the income tax of the taxpayer for any other state, provided that the refund does not exceed the amount of the decrease in Virginia tax attributable to such change or correction;
- two years from the filing of an amended Virginia return resulting in the payment of additional tax, provided that the current amended return raises issues relating solely to the prior amended return and that the refund does not exceed the amount of the tax payment made as a result of the prior amended return; or
- two years from the payment of an assessment, provided the amended return raises issues relating only to the prior assessment and the refund does not exceed the amount of tax paid on the prior assessment.

Form 760PY

To amend Form 760PY, complete a new Form 760PY (for the tax year you are amending) using the corrected figures, as if it were the original return. Check the amended box in the Filing Information section of the return. Do not make any adjustments to the amended

return to show that you received a refund or paid a balance due as a result of the original return.

Additional Required Attachments

If you filed an amended federal return, attach a copy of your federal Form 1040X or other claim form and supporting material to your amended Virginia return to substantiate the amendment. If amending your Virginia return for other reasons, attach a statement to explain why you are amending your return. Show any computations necessary to verify the adjustments you are making. Staple your check or money order to the bottom left corner of your return if you owe a balance due. Also, staple to your return any additional Forms W-2, 1099 or VK-1 if claiming more income tax withheld than what was claimed on your original return.

Federal Adjustments

If your federal income tax return was adjusted by the Internal Revenue Service during the taxable year and the adjustment was not reported to the Virginia Department of Taxation, an amended Virginia return must be filed with a copy of the federal adjustments attached within one year after the final determination of such federal change, correction or renegotiation. See “When to File” earlier in this section for additional information.

Net Operating Losses

Although there is no express statutory provision for a separate Virginia net operating loss available for carryback or carryover, the amount of federal net operating loss is the starting point in computing the amount of deduction to be allowed on the Virginia return. Check the amended return box located on the front of Form 760PY, indicating that this is an amended return. Also, check the box indicating the return is the result of a net operating loss (NOL) carryback. **Be sure to attach a complete copy of your federal amended return, if applicable.**

General instructions for computing the NOL can be obtained from our website at www.policylibrary.tax.virginia.gov/OTP/policy.nsf. Go to the Virginia Tax Administrative Code section and select 23VAC10-110-80 and 23VAC10-110-81 located in Chapter 110, Individual Income Tax.

Deceased Taxpayers

Single filers: You must list the filer’s name and Social Security Number and fill in the box for Primary Taxpayer Deceased. Include a copy of the federal Form 1310 and/or the appropriate court appointment papers.

Joint filers: If one filer is deceased, the names and Social Security Numbers of both filers must be listed. Fill in the box to indicate the deceased filer. Use the Primary Taxpayer Deceased box if the filer in the Your name and Social Security Number fields is deceased. Use the Spouse Deceased box if the filer in the Spouse name and Social Security Number fields is deceased.

If completing a return for joint filers with both filers deceased, the names and Social Security Numbers of both filers must be listed. Fill in both deceased boxes. Include a copy of the federal Form 1310 and/or the appropriate court appointment papers.

Record keeping

Keep your tax records for at least three years from the due date of the return or the date the return was filed, whichever is later. If the Internal Revenue Service requires you to keep your federal records for a longer period of time, keep your state records for the same period of time.

FILING REQUIREMENTS

FILING THRESHOLD

Filing requirements are based on your residency status and the amount of your income. Dependents and students are subject to the same filing requirements as anyone else.

- Residents of Virginia with income at or above the minimum filing threshold must file.
- Nonresidents of Virginia with income at or above the filing threshold must file if any of their income is from Virginia sources.

For information on Virginia residency requirements, please read the next section, “Residency Status.”

If your Virginia Adjusted Gross Income (VAGI) is at or above the threshold amount shown in the following table, you are required to file. VAGI is the Adjusted Gross Income on your federal return plus any Virginia additions, minus any Virginia subtractions. Information on Virginia additions and subtractions is included in the instructions, later in this book.

For a part-year resident, if your income is only from wages, salaries and interest from a savings or checking account, your VAGI is usually the same as the Adjusted Gross Income shown on your federal return less the wages, salaries and interest earned while a nonresident of Virginia. Once you have computed your VAGI, check the chart below to see if you need to file a Virginia income tax return.

YOU DO NOT HAVE TO FILE IF YOU ARE:

Single and your VAGI is less than\$11,650

Married filing with your spouse
on the same return and your
combined VAGI is less than\$23,300

Married filing separately (on separate
forms) and your VAGI is less than\$11,650

If you are not required to file, but you had Virginia income tax withheld or made estimated payments, you are entitled to a refund of the amount withheld or paid. You must file a return to get a refund. We periodically review and update our records to make sure that we have correct return information. Sometimes, we have to contact taxpayers to confirm that they did not need to file for a given year. As a result, even if you do not need to file a return, you may receive an inquiry at a later date to verify your VAGI.

RESIDENCY STATUS

Residents

Every Virginia resident whose Virginia Adjusted Gross Income is at or above the minimum filing threshold must file. Any “federal area” such as a military or naval reservation, federal agency or federal administration that is inside the geographical boundaries of Virginia is considered a location in Virginia and nonactive duty residents of those areas are subject to Virginia income tax just like residents of any other location in the state.

You may be required to file as a resident in two states if you are an actual resident of one state and a domiciliary resident of another state. (See definitions below.) If you are in this situation, you may be able to take a credit on the return filed in the state of your legal domicile. Refer to the instructions for the Schedule OSC later in this book for more information on the credit for tax paid to another state.

Domiciliary Residents

Anyone who maintains a legal domicile (residence) in Virginia, whether living in or out of Virginia, is a domiciliary resident. This

includes members of the U.S. armed forces who have Virginia as their home of record. Domiciliary residents have their permanent place of residence in Virginia. Any person who has not abandoned his or her legal domicile in Virginia and established legal domicile in another state remains a domiciliary resident of Virginia, even if residing in another jurisdiction for a number of years. In determining domicile, we consider many factors. Some of the more common indicators of domicile are: voter registration; motor vehicle and personal property registration; business pursuits; expressed intent; conduct; leaseholds and sites of real property owned.

Actual Residents

Anyone, other than a member of the U.S. armed forces or the U.S. Congress, who maintains a place of abode (i.e., home) in Virginia for a total of more than 183 days of the taxable year while having legal domicile (residence) in another state or country is an actual resident of Virginia. This category often includes students who are domiciliary residents of another state while attending college in Virginia or the spouses* and dependents of members of the U.S. armed forces stationed in Virginia. Although this residency classification does not apply to members of the U.S. Congress, it does apply to members of their families and staffs.

*The spouse of a military servicemember may be exempt from Virginia individual income tax on income from services performed in Virginia if (i) the servicemember is present in Virginia in compliance with military orders; (ii) the spouse is in Virginia solely to be with the servicemember; and (iii) they both maintain domicile in another state that is the same for both spouses. For more information, see Tax Bulletin 09-10 and Tax Bulletin 10-1 available at www.tax.virginia.gov.

Part-Year Residents

You may be a part-year resident if your residency in Virginia began or ended during the taxable year. Residents who move into or out of Virginia during the taxable year and do not fall into either category below are generally considered full-year residents.

- Virginia residents who move out of Virginia during the taxable year *and* become domiciliary residents of another state are part-year residents, provided they do not move back to Virginia for at least six months.
- Those who move into Virginia during the taxable year and become either domiciliary or actual residents of Virginia are also considered part-year residents.

The distinction between full-year and part-year residents is important in deciding which form to file and what income is taxable in Virginia. To compute VAGI and determine if VAGI meets the minimum filing threshold, part-year residents who file Form 760PY are allowed a subtraction from federal adjusted gross income equal to the amount of income attributable to residence outside Virginia.

If you are a part-year resident and you do not file the correct form, you will not compute the correct amount of tax. See “WHICH FORM TO FILE” on Page 6.

Nonresidents

Nonresidents of Virginia with Virginia Adjusted Gross Income at or above the filing threshold must file if any of their income is from Virginia sources. Income from Virginia sources is income received from labor performed, business done, or property located in Virginia, including gains from sales, exchanges or other dispositions of real estate and intangible personal property having a situs in Virginia. Virginia source income includes income passed through from a partnership, S Corporation or limited liability company that does business in Virginia. It also includes business income and proceeds from real estate transactions passed through

by a Virginia trust. It generally does not include personal savings account interest or dividends from an individual's stock market investments.

Those who maintain legal domicile in another state and live in Virginia less than 183 days of the taxable year (or do not live in Virginia at all) are nonresidents. Also, members of the U.S. armed forces who have another state as their home of record (legal domicile) are generally classified as nonresidents of Virginia, even though they may be stationed in Virginia for years.

Exceptions for Certain Nonresidents

If you are a nonresident of Virginia who commutes daily to work in Virginia from **Kentucky** or the **District of Columbia**, you do not have to file if:

- You have no actual place of abode in Virginia at any time during the year;
- Salaries and wages are your only Virginia source income; and
- Your salaries and wages are subject to income taxation by Kentucky or the District of Columbia.

If you are a nonresident of Virginia who is a resident of **Maryland, Pennsylvania or West Virginia** and you earn salaries and wages in Virginia, you are exempt from filing a Virginia income tax return and paying Virginia income tax if:

- Your only income from sources in Virginia is from salaries and wages; and
- Your salaries and wages are subject to income taxation by Maryland, Pennsylvania or West Virginia.

If you are a domiciliary resident of Kentucky, Maryland, Pennsylvania, West Virginia or the District of Columbia and have income from Virginia sources other than wages and salaries, (such as business income or gain from the sale of a residence), you must file a Virginia Nonresident Individual Income Tax Return, Form 763, and pay tax on income not specifically exempted above.

WHICH FORM TO FILE

Residents File Form 760

File Form 760 if you are a part-year resident and all of your income came from Virginia sources or was received while you were a Virginia resident. This will allow you to claim the full exemption and standard or itemized deduction instead of computing partial amounts as required for part-year residents filing Form 760PY.

Part-Year Residents File Form 760PY

As a general rule, part-year residents file Form 760PY. If one spouse is a full-year resident and the other is a part-year resident, the couple may file together on Form 760PY. The part-year resident spouse will compute a prorated exemption amount. The full-year resident spouse will claim the full exemption amount.

If you are a part-year resident who received Virginia source income, as well as other income, during the portion of the year you lived in another state, you need to file two Virginia returns for the taxable year. File Form 760PY to report the income attributable to your period of Virginia residency. File Form 763, the nonresident return, to report the Virginia source income received as a nonresident.

Nonresidents File Form 763

Generally, nonresidents with income from Virginia sources must file a Virginia return if their income is at or above the filing threshold. Nonresidents who earn salaries and wages in Virginia and pay tax on those salaries and wages to the District of Columbia, Kentucky, Maryland, Pennsylvania or West Virginia are not required to file if they meet the criteria described in the previous section under "Exceptions for Certain Nonresidents." Residents of states other

than those in "Exceptions for Certain Nonresidents" do not qualify for a filing exception.

Usually, when one spouse is a resident and the other spouse is a nonresident, each spouse whose income is at or above the filing threshold must file separately. The resident must file on Form 760. The nonresident spouse must file Form 763. There are only two circumstances in which such a couple can file jointly on the same return. If both spouses have income and all of the nonresident's income is Virginia source income, a joint resident return (Form 760) may be filed. Also, if the nonresident spouse has no income at all, a joint resident return may be filed.

Members of the Armed Forces

Active duty pay for members of the armed forces is taxable only in the state of legal domicile, regardless of where stationed. You must file as a nonresident if you are in the military, domiciled in another state and have any other income that is from Virginia sources.

The spouse of a military servicemember may be exempt from Virginia individual income tax on income from services performed in Virginia if (i) the service member is present in Virginia in compliance with military orders; (ii) the spouse is in Virginia solely to be with the servicemember; and (iii) they both maintain domicile in another state that is the same for both spouses. For more information, see Tax Bulletin 09-10 and Tax Bulletin 10-1 available at www.tax.virginia.gov.

Use Form 763 if you are in the military, domiciled in another state and have any other income that is from Virginia sources. Examples follow.

If a married couple lives in Virginia the entire year, but is domiciled in Alabama, and has nonmilitary income from Virginia sources that is attributable to both spouses, the spouse on active duty will file Form 763, using Filing Status 4. Generally, the state of domicile will allow credit for tax paid to Virginia on the earned income that is taxed in both states.

If the nonmilitary spouse's domicile changed to Virginia during the year, Form 760PY will be filed, using Filing Status 3, to pay tax on income earned after becoming a Virginia resident.

WHEN TO FILE

When filing by mail, the envelope must be postmarked by the due date. Put the correct postage on your envelope. If your return is sent back to you because of insufficient postage, you are liable for the penalties and interest if the postmark on the remailed return is after the due date.

If the due date falls on a Saturday, Sunday or legal holiday, you may file your return on the next day that is not a Saturday, Sunday or legal holiday.

Calendar Year Filers - May 2, 2011

File by May 2, 2011, if you are a calendar year filer.

Fiscal Year Filers

If your taxable year is not January 1 through December 31, your return must be postmarked by the 15th day of the fourth month following the close of your fiscal year.

When filing, you should write "FISCAL YEAR FILER" across the top of Page 1 of Form 760PY and attach a statement indicating the beginning and ending months of your 12-month fiscal year. If you file after the due date or do not pay the full amount due by the due date, you may have to pay penalties and interest.

Overseas Rule

If you are living or traveling outside the United States or Puerto Rico (including serving in the military or naval service), you must file your return by **July 1, 2011**. Be sure to check the appropriate box to the left of the name and address section.

Members of the Military - Members of the Armed Forces serving in a combat zone receive either the same individual income tax filing and payment extensions as those granted to them by the IRS, plus an additional fifteen days, or a one-year extension, whichever date is later. All extensions also apply to spouses of military personnel. Service families may wish, however, to file their individual income tax returns before the extended deadlines to receive refunds. Service members who claim this extension should write "Combat Zone" on the top of tax returns, as well as any notice issued by the Virginia Department of Taxation to combat zone personnel regarding tax collection or examination, and on the outside of the return envelopes used to mail the return. More information can be obtained from Tax Bulletin 05-5 on the website at www.policylibrary.tax.virginia.gov/OTP/policy.nsf. Go to the Tax Bulletin section and select VTB 05-5 (PD 05-67) from the list of 2005 tax bulletins.

In addition, every member of the armed services deployed outside of the United States is allowed an extension of his or her due date. The extension will expire 90 days following the completion of deployment. Service members who claim this extension should write "Overseas Noncombat" on the top of their tax returns.

Extension Requests

Virginia law provides an automatic six-month filing extension for income tax returns. No application for extension is required. The extension is for filing the return, not for payment of the tax; therefore, you must pay at least 90 percent of your tax by the due date, May 2 for calendar year filers. To make a payment of tentative tax, use Form 760IP.

If you file your return within six months after the due date but do not meet the 90 percent payment requirement, an extension penalty of two percent per month will apply to the balance of tax due with your return from the due date through the date your return is filed, to a maximum of 12 percent of the tax due. Interest will also be accrued on any balance of tax due with a return filed within the extension period, regardless of whether the 90 percent payment requirement is met.

If you file your return within six months after the due date but do not pay the tax due at the time of filing, the unpaid balance will be subject to a late payment penalty of six percent per month from the date of filing through the date of payment, to a maximum of 30 percent. The late payment penalty will be assessed in addition to any extension penalty that may apply. The automatic extension provisions apply only to returns that are filed within six months from the due date. If you file your return more than six months after the due date, a late filing penalty of 30 percent will apply to the balance of tax due with your return.

Refund Returns

You do not need to file Form 760IP if you cannot file by the due date and you are certain that your return will result in a refund. This is because the late filing penalty is not assessed on refund returns. To receive a refund, however, you must file within three years of the due date.

Foreign Income Exclusion

If you qualify for the federal foreign income exclusion and have requested an extension of time for filing your federal return, you may apply for an extension of time to file your state return. You will be granted an extension for thirty days after the date you expect to qualify for the exclusion. You must apply by letter on or before the first day of the seventh month following the close of your taxable year and attach a copy of the approved federal extension to your return when you file.

WHERE TO FILE

To file by mail, use the mailing address listed on the back cover of this book for the city or county where you live or last lived while a resident of Virginia. Local phone numbers are also provided.

BALANCE DUE RETURNS

You can pay by check, credit card or online. Make your check payable to the Treasurer of the city or county in which you reside. **Make sure your social security number is on your check and make a notation that it is your 2010 income tax payment.**

To pay by credit card, call 1-800-272-9829 (1 800 2 PAY TAX), or visit www.officialpayments.com. **The jurisdiction code for Virginia is 1080.** If you choose this option, fill in the box on Line 32 of Form 760PY, indicating this type of payment. You will be assessed a fee by the company processing the transaction.

If you have already filed your return with your Local Commissioner of the Revenue and did not indicate you were paying by credit card, call your Local Commissioner of the Revenue's office for the correct jurisdiction code prior to initiating your credit card payment. Phone numbers are listed on the inside back cover.

You can pay online from your checking or savings account for a balance due return at www.tax.virginia.gov.

DEBT COLLECTION ACT

Before issuing any refunds, Virginia law requires us to check for any outstanding debt with agencies of the Commonwealth of Virginia, Virginia local governments and the Virginia court system. If any such debt is found, regardless of the type of tax return filed, all or part of your refund may be withheld to help satisfy the debt and processing of your return will be delayed.

AVOID COMMON MISTAKES

- **Sign your return.**
- Make sure your name, address and social security number(s) are correct.

- Check all math.
- If you itemized deductions, make sure you complete Line 11 through Line 13 on Form 760PY.

COMPUTE YOUR LOWEST TAX (TIP FOR MARRIED TAXPAYERS)

Since Virginia's individual income tax is imposed at graduated rates, a couple with income attributable to each spouse may find that by using Filing Status 2 (filing a joint return), their joint income is taxed at a higher rate than their separate taxable incomes would be. Filing Status 4 (married filing a combined return), is designed to adjust for this difference. When using Filing Status 4, tax is computed on each spouse's separate taxable income and then the two amounts of tax are added together to arrive at their total tax. As a general rule, when both you and your spouse have income, Filing Status 4 will enable you to obtain the lowest combined tax provided you assign deductions and dependents to each spouse so that the taxable income in each column on Form 760PY is as close to equal as possible.

If only one spouse has income or if one spouse's income would be reduced to zero (or less) after claiming personal exemptions and subtractions, use Filing Status 2 instead.

filing status on your federal return, check the “Single” filing status box and the “Head of Household” box.

Filing Status 2 - Married, Filing Joint Return

You and your spouse may choose to file a joint return if (a) you computed your federal income tax liabilities together on a joint federal return, or (b) neither you nor your spouse was required to file a federal return. You may claim this filing status even if your spouse has no income. When filing a joint return, your spouse’s exemption is included in the “You” column. Do not claim your spouse as a dependent.

 If both spouses have income, filing a combined return (Filing Status 4) may result in a lower balance due or a greater refund than a joint return (Filing Status 2).

Filing Status 3 - Married, Filing Separate Return

If you and your spouse filed separate federal returns, you can file separate state tax returns or you can choose to file a combined return (Filing Status 4). Generally, if you filed a joint federal return and only one spouse is a Virginia resident, the Virginia resident must file a separate Virginia return. When you file separate returns in Virginia, you must report your federal adjusted gross income, exemptions and deductions on your Virginia return as if you had filed separate federal returns. Federal rules must be applied to determine the exemptions and itemized deductions allowed when filing separate returns. If one spouse claims itemized deductions, the other spouse must also.

If the number of dependent exemptions or the amount of itemized deductions cannot be accounted for separately, they must be proportionately allocated between each spouse based on each spouse’s income.

Also enter your spouse’s Social Security Number in the name and address section of the return and enter your spouse’s name on the line provided in the Filing Status section.

Filing Status 4 - Married, Filing Separately on This Combined Return

You can use this filing status if **both** you and your spouse had income, regardless of whether you filed jointly or separately for federal purposes. When both spouses have income, this filing status usually enables a couple to compute a lower tax than filing a joint return (Filing Status 2). If you choose Filing Status 4, you are jointly and severally liable for the amount of tax due and any refunds will be made jointly payable.

Since Virginia’s income tax is imposed at graduated rates, a couple with income attributable to each spouse may find that by using Filing Status 2, their joint income is taxed at a higher rate than their separate incomes would be. Filing Status 4 is designed to adjust for this difference. Filing Status 4 allows a couple to compute a combined tax by reporting income for each spouse separately and then allocating dependent exemptions and deductions as mutually agreed. Tax is computed on each spouse’s separate taxable income and then the two amounts of tax are added together to determine their total tax.

 Use Filing Status 2 instead of Filing Status 4 if only one spouse had income or if one spouse’s income would be reduced to zero or less after claiming personal exemptions and subtractions.

When using Filing Status 4, each spouse must claim his or her own income, personal exemptions and, if allowable, any additional exemption for age or blindness. The number of dependent exemptions may be allocated between spouses as you mutually agree. Each spouse has a separate exemption line.

Exemptions

Enter the number of exemptions you are allowed in the appropriate boxes. If filing a joint return (Filing Status 2), enter the number for both spouses combined in the boxes in Column A. Use the exemption information when completing Line 14.

Dependents Generally, you may claim the same number of dependent exemptions allowed on your federal return. If using Filing Status 3 or 4, see the Filing Status instructions in the previous section for the rules on claiming dependents. You may never claim less than a whole exemption. The same dependent may not be claimed on separate returns.

65 or Over To qualify for the additional personal exemption for age 65 or older, you must have been age 65 or over on or before January 1, 2011.

Blind To qualify for the additional personal exemption for the blind, you must have been considered blind for federal income tax purposes.

HOW TO ENTER NUMBERS

Use the Correct Column: Enter numbers in Column A if you are using Filing Status 1, 2 or 3. Enter numbers in Columns A and B

only if you are using Filing Status 4. When using Filing Status 4, make sure the information in Column A applies to the name and social security number listed first on the return. Column B is for your spouse.

Round to Whole Dollars: To improve accuracy of return preparation and speed the processing of your return, all amount entries on your return must be rounded to the nearest dollar. Amounts of 1 cent to 50 cents are to be rounded down while all amounts 51 cents to 99 cents are to be rounded up.

Negative Numbers: Enter negative numbers (numbers less than 0) in brackets. For example, if your federal adjusted gross income was negative 12,000, enter this as [12,000].

Line 1 - Adjusted Gross Income

The Virginia Schedule of Income *must* be completed before you make an entry on Line 1. Complete the Virginia Schedule of Income, Part 1, Lines 1 through 9, then enter the total amount of federal adjusted gross income on Line 1 as follows. The instructions for the Virginia Schedule of Income are on Page 13. Attach the completed Virginia Schedule of Income to your return.

Filing Status 1, 2 or 3

Enter the amount from Schedule of Income, Part 1, Line 7, Column A1, on Line 1, Column A.

Filing Status 4

Enter the amount from Schedule of Income, Part 1, Line 7, Column B1, on Line 1, Column B, and enter the amount from Line 7, Column A1, on Line 1, Column A. When using Filing Status 4, the total of Column A and Column B on Line 1 *must* equal the total federal adjusted gross income on your federal return.

Line 2 - Additions

Line 4 - Qualifying Age Deduction

Enter your birth date. If filing status 2, 3 or 4 enter birth date for both you and spouse.

If filing status 4, enter **your** age deduction on Line 4a, Column A and the deduction for **spouse** on Line 4b, Column B.

Line 5 - Social Security Act and equivalent Tier 1 Railroad Retirement Act Benefits

Enter Social Security and equivalent Tier 1 Railroad Retirement Act benefits reported as taxable income on your federal return and attributable to your period of residence in Virginia.

Line 6 - State Tax Refund or Overpayment Credit Reported as Income on Federal Return

Enter the amount of any state income tax refund or overpayment credit reported as income on your federal income tax return and received while a resident of Virginia (claim in the same column as the income was reported on Line 6 on the front of the Virginia return).

State, local or foreign income taxes withheld from your salary, estimated tax payments or payments made on tax for a prior year to such taxing authority may be deducted on your federal return for the year withheld or paid. The federal deduction is for the amount paid rather than the tax liability, so a refund or credit is generally treated as taxable income (a recovery of an excessive deduction) on the federal return. Since Virginia does not allow the state and local

income tax deduction, a federally taxable refund or overpayment credit is to be deducted from federal adjusted gross income on the Virginia return.

Line 7 - Income Attributable to Your Period of Residence Outside Virginia

Enter the amount from the Virginia Schedule of Income, Part 1, Line 9, Column A3, in Column A. Enter the amount from Part 1, Line 9, Column B3, in Column B.

Line 8 - Subtractions

If you reported any subtractions on Virginia Schedule 760PY ADJ, enter the total amount from Line 7 of Schedule 760PY ADJ.

Line 10 - Virginia Adjusted Gross Income

Deduct Line 9 from Line 3 and enter the result.

If the amount on Line 10 is less than the amount shown below for your filing status, your Virginia income tax is \$0.00 and you are entitled to a refund of any withholding or estimated tax paid.

To claim a refund in these cases:

- Skip to Line 19 and enter "0.00" as your tax, then
- Complete Lines 20 - 33.

Filing Status	Filing Threshold
1. Single.....	\$11,650
2. Married, filing jointly.....	\$23,300
3. Married, filing separately.....	\$11,650
4. Married, filing combined return*.....	\$23,300

* When filing a combined return, compare the threshold to the total of Columns A and B, Line 10.

Deductions

Claiming Deductions When Filing a Combined Return: If you are filing a combined return (Filing Status 4), you can allocate deductions and dependents between spouses as you choose. As a general rule, you can lower your combined tax by assigning deductions and dependents to each spouse so that the taxable incomes in Columns A and B are as close to equal as possible. The deductions and dependents which can be allocated are on Lines 13, 14 and 15.

Line 11 - Itemized Deductions

Enter the total itemized deductions claimed on federal Schedule A (or the FDC Worksheet if you have an addition or subtraction due to Fixed Date Conformity) paid while a resident of Virginia.

You must claim the same type of deductions (standard or itemized) on the Virginia return as claimed on your federal return. If a joint federal return was filed and you are filing separate returns in Virginia (Filing Status 3) and claiming itemized deductions, itemized deductions that cannot be accounted for separately must be allocated proportionately between spouses based on each spouse's share of the federal adjusted gross income.

Virginia Itemized Deduction

If you claimed itemized deductions on your federal income tax return, you must claim itemized deductions on your Virginia income tax return. Your allowable itemized deductions on Form 760PY are expenses claimed on Schedule A for which payment was made while you were a Virginia resident. State and local income tax claimed as an itemized deduction on your federal return is not allowed as a Virginia deduction. If you have an addition or subtraction due to Fixed Date Conformity, you must complete the FDC Worksheet to compute your Virginia itemized deductions.

The copy of your federal income tax return attached to Form 760PY must include the Schedule A.

**FDC Worksheet
Fixed Date Conformity Modification To
Itemized Deductions**

Enter the information requested on each line. In most cases, the deduction allowed on federal Schedule A will be allowed on the FDC Worksheet. The exceptions are Gifts to Charity (Sch. A, Line 19) and Casualty and Theft Loss (Sch. A, Line 20). These amounts should be recomputed by substituting the amount on Line 5 for the FAGI you used to compute your federal limitations.

Computation of Fixed Date Conformity FAGI

1. Federal Adjusted Gross Income (FAGI) from federal return
2. Fixed date conformity additions to FAGI
3. Subtotal. Add Lines 1 and 2
4. Fixed date conformity subtractions from FAGI
5. Fixed date conformity FAGI. Deduct Line 4 from Line 3

**Modifications to Itemized Deduction Due to

20. If Line 19 is more than Line 17, enter '0'. Otherwise deduct Line 19 from Line 17
21. Enter the amount from federal Schedule A, Line 28
22. Add Lines 9, 10, 11, 12, 13, 20 and 21

Enter the amount of deductions attributable to your period of residence in Virginia on Form 760PY, Line 11.

Line 12 - State And Local Income Tax

If claiming itemized deductions, enter the amount of state and local income tax allowed on your Federal Schedule A that was paid while you were a resident of Virginia. **If you did not claim any state and local income tax on federal Schedule A, enter "0.00" on this line.**

Line 13 - Virginia Deductions

If claiming itemized deductions, subtract Line 12 from Line 11. **The copy of your federal income tax return attached to Form 760PY must include the Schedule A.** If you are not claiming itemized deductions, enter the amount from Line 5 of the Standard Deductions Worksheet.

If you did not claim itemized deductions on your federal income tax return, you must claim the standard deduction on your Virginia income tax return. Your allowable standard deduction on Form 760PY will be prorated based on the portion of your federal adjusted gross income that was received while a resident of Virginia.

Standard Deductions Worksheet

1	Enter the federal adjusted gross income (Total Part 1, Line 9, Columns A1 and B1 from Schedule of Income).		
2	Enter the income attributable to your period of Virginia residence (Total Part 1, Line 9, Columns A2 and B2 from Schedule of Income).		
3	Divide the amount on Line 2 by the amount on Line 1 and report as a percentage, not to exceed 100%. Example: 0.3163 becomes 31.6%.	.	
4	If using Filing Status 1, enter \$3,000. If using Filing Status 2 or 4, enter \$6,000. If using Filing Status 3, enter \$3,000.		
5	Multiply Line 3 by Line 4. Enter here and on Line 13, Form 760PY.		

When using Filing Status 4, the standard deduction may be allocated between each spouse as you mutually agree. As a general rule, you can lower your combined tax by assigning deductions (Lines 13 and 15) and dependents (Line 14) to each spouse so that the taxable incomes in Columns A and B are as close to equal as possible.

Exception: Dependent's Limited Standard Deduction

If you could be claimed as a dependent on the federal income tax return of another taxpayer, your allowable standard deduction may not exceed the amount of your earned income. This rule applies to dependents of all ages, including children under age 19 and full-time students under 24 years old who are eligible to be claimed as a dependent on their parent's return.

Remember to check the box on the front of Form 760PY if you can be claimed as a dependent on another's return. Your maximum standard deduction is the *lesser* of EARNED INCOME; or

1. \$3,000 if you are single (Filing Status 1)
2. \$6,000 if you are married and file a joint or combined return (Filing Status 2 or 4)
3. \$3,000 if you are filing a separate return from your spouse (Filing Status 3).

EXAMPLE: (Standard Deduction Limited):

A person (claimed as a dependent on another's return) moved to Virginia on June 25, 2010. Before moving to Virginia he had unearned income of \$5,000 in another state. While in Virginia he had interest income from a bank account (unearned income) of \$4,200 and income from a summer job of \$1,200 (earned income). This person's limited standard deduction to be entered on Line 13 is \$622.80 which should be rounded to \$623.

Using the Standard Deductions Worksheet, the limited standard deduction is computed by multiplying the maximum limited standard deduction on Line 4, which is \$1,200 of earned income, by the percentage on Line 5, which would be 51.9%. Line 4 is \$1,200 because the \$1,200 of earned income is less than the \$3,000 standard deduction for a single taxpayer.

NOTE: The return of a taxpayer claiming a child (or other person) as a dependent is not affected if the child is required to claim a limited standard deduction.

Line 14 - Exemption Amount

The total exemption amount is the number of exemptions claimed prorated based on the portion of the year you resided in Virginia. Complete the Prorated Exemption Worksheet in Part 2 of the Virginia Schedule of Income to compute your allowable personal and dependent exemptions. Instructions for the Virginia Schedule of Income begin on Page 13.

Line 15 - Deductions

If you reported any deductions on Virginia Schedule 760PY ADJ, enter the total amount from Line 9 of Schedule 760PY ADJ.

Lines 18 - Income Tax

Remember to include any estimated income tax carryover from your 2009 individual income tax return.

Line 22 - Combined Extension Payments

Enter the total tentative tax paid with Form 760IP, if applicable.

Line 23 - Credit For Low Income Individuals or Virginia Earned Income Credit

If your total family income does not exceed the federal poverty guidelines or you claimed the federal earned income credit, you may be eligible to claim this credit for low income individuals or the Virginia Earned Income Credit.

These credits may not be claimed if you, your spouse, or any dependent claims any of the following:

- Virginia National Guard Subtraction
- Military pay subtraction (first \$15,000)
- Subtraction for first \$15,000 for state and federal employees whose annual salary is \$15,000 or less
- Exemption for blind taxpayers or taxpayers age 65 and over
- Age Deduction

If you are eligible, calculate these credits by completing Schedule 760PY ADJ, Lines 10 - 17. Enter the credit amount from Line 17 of Schedule 760PY ADJ on Line 23 of Form 760PY.

Line 24 - Credit for Tax Paid to Another State

Generally, Virginia will allow taxpayers filing resident individual income tax returns to claim credit for income tax paid as a nonresident to another state on earned or business income derived from sources outside Virginia or any gain (if included in federal adjusted gross income) on the sale of a capital asset outside Virginia, provided the income is taxed by Virginia as well as the other state.

If you are eligible, calculate the credit by completing Schedule OSC. Enter on Line 24 the credit amount from Schedule OSC, Line 21. Instructions for Schedule OSC are on Page 29.

Line 25 - Credits From Schedule CR

Complete **Schedule CR** and attach it to your return to claim the following tax credits. For some credits, other Virginia forms are also required. To order Schedule CR, Schedule CR Instructions and these other credit forms, see Page 3.

If you are only claiming a Political Contributions Credit, enter the amount of the credit and check the box. You do not need to attach Schedule CR. The Political Contributions Credit is available to individuals who make contributions to candidates for state or local political office. The credit is 50 percent of the amount of the contribution, subject to a \$25 limit for individuals and a \$50 limit for married taxpayers filing jointly and cannot exceed your tax liability.

For details on these credits and information on carryover and pass-through provisions, refer to Schedule CR, Schedule CR instructions and the organizations or forms specified.

VIRGINIA SCHEDULE 760PY ADJ

Fixed Date Conformity Update

Virginia's date of conformity with the Internal Revenue Code (IRC) was advanced from December 31, 2008, to January 22, 2010. The 30% and 50% bonus depreciation allowance for certain assets under the IRC and the 5-year net operating loss (NOL) carry back allowed for net operating losses generated in taxable year 2008 or 2009 are still not allowed. Additional fixed date conformity adjustments may be required for Cancellation of Debt Income under IRC § 108(i), and the domestic production deductions under IRC § 199.

At the time these instructions went to print, the only required adjustments for "fixed date conformity" were those mentioned above. However, if federal legislation is enacted that results in changes to the Internal Revenue Code for the 2010 taxable year, taxpayers will be required to make adjustments to their Virginia returns that are not described in the instruction booklet. Information about any such adjustments will be posted on the Department's website at www.tax.virginia.gov.

Additions To Federal Adjusted Gross Income

Line 1 - Interest on Obligations of Other States

Enter the interest earned while a Virginia resident that was not included in federal adjusted gross income, less related expenses to the extent not deducted in determining federal taxable income, on obligations of any state other than Virginia, or of a political subdivision of any such state unless created by compact or agreement to which this state is a party.

Line 2a - Fixed Date Conformity

A. Bonus Depreciation - For an explanation, please see the section titled, *Fixed Date Conformity Update*. Enter the amount that should be added to Federal Adjusted Gross Income based upon the recomputation of allowable depreciation.

B. Other Changes Not Listed Above - Add any other amounts not covered above that should be adjusted because of Virginia's conformity to the Internal Revenue Code as it existed on January 22, 2010. Additions for Cancellation of Debt should be entered on Lines 2b - 2c. Check our website, www.tax.virginia.gov, for other Fixed Date Conformity adjustments that may have passed after these instructions were printed.

C. Total of Lines A and B - Enter the total of Lines A and B here and on Schedule 760PY ADJ, Line 2a.

Mutual Funds

If you received federally tax exempt interest dividends from a regulated investment company (mutual fund) that invested in obligations both taxable and exempt for Virginia purposes, the entire dividend income earned while you were a Virginia resident must be entered as an addition unless you attach a statement provided by the fund that:

- details the amount of dividends you earned while a Virginia resident; and
- summarizes the prorations between exempt and taxable dividends (monthly breakdown is preferred).

Enter the totals of Columns A1 and B1 on Line 1, Form 760PY (front). If the Schedule of Income and Adjustments is properly completed, the sum of Columns 2 and 3 will equal your federal adjusted gross income as shown in Column 1.

Line 8 - Net Fixed Date Conformity Modifications

Complete Schedule 760PY ADJ, Lines 2a and 6a, and enter the net amount on Line 8, Column 1 of the Schedule of Income. In Column 2, enter the portion attributable to your period of residence in Virginia. Enter the balance in Column 3.

Line 9 - Fixed Date Conformity FAGI

Combine Line 7 and Line 8 and enter the result. Enter the total of Line 9, Column 3, on Form 760PY, Line 7.

Note: If you are claiming the standard deductions on your return, the total of Line 9, Columns A1 and B1, must be entered on Line 1 of the Standard Deductions Worksheet on Page 11.

Part 2 - Prorated Exemption Worksheet

The prorated exemptions worksheet is used to reduce your personal and dependent exemptions to an amount which is proportional to the number of days you resided in Virginia during the taxable year. For example, if you are single, claim no dependents and moved to Virginia on July 1, your prorated Virginia personal exemption is computed as follows:

Prorated Virginia Personal Exemption

\$930 (One personal exemption)

X .504 (Ratio Schedule factor for July 1 move to Virginia)

\$468.72 (Be sure to round to \$469.00)

Each spouse must compute his or her own prorated personal exemptions based on the number of exemptions claimed in the Exemption Section. Use the separate exemption amounts for "you" and your "spouse" when completing Lines 1- 11 of the Prorated Exemption Worksheet in Part 2 of the Schedule of Income. Enter in the appropriate column on Form 760PY, Line 14. If claiming Filing Status 2, the combined exemption amount for you and spouse should be entered on Form 760PY, Line 14, column A.

Exception

If 100% of your federal adjusted gross income was earned while you were a Virginia resident, you do not have to prorate your personal exemptions. If you are married, each spouse's personal exemption is prorated separately based on that spouse's period of residence in Virginia. However, if 100% of either spouse's income is from Virginia sources, that spouse's personal exemption does not have to be prorated.

If you moved into and out of Virginia during the year (or vice versa), base the proration on the total number of days that you were a Virginia resident.

When using Filing Status 3, if the number of exemptions *cannot* be accounted for separately, they *must* be proportionately allocated between each spouse based upon each spouse's income.

Part 3 - Moving Information

If you moved into Virginia during the year, enter your prior state of residence. If you are filing a joint return, also enter the prior state of residence for your spouse.

A typical situation would involve a mutual fund that invests in bonds of several states, including Virginia. The interest on the bonds issued by the other state is taxable for Virginia purposes even though exempt for federal purposes. Unless the taxpayer is able to substantiate the amount attributable to the Virginia bonds, the total amount of dividends exempt from federal taxation will be an addition on the Virginia return.

If you attach the information specified above, enter the exempt portion of income on Line 1 or Line 2, as appropriate.

Lines 2b - 2c - Other Additions

On Lines 2b - 2c, enter the two digit code listed below, followed by the amount, for any additions to federal adjusted gross income. **If you have more than two additions on Lines 2b - 2c of Schedule 760PY ADJ, enter code "00" and the total addition amount on 2b and attach an explanation of each addition to your return.**

Enter the amount that would be reported under the installment method from certain dispositions of property. If, in a prior year, the taxpayer was allowed a deduction for certain income from dealer dispositions of property made on or after January 1, 2009, in the years following the year of disposition, the taxpayer is required to add back the amount that would have been reported under the installment method. Each disposition must be tracked separately for purposes of this adjustment.

15 Domestic Production Deduction

Enter 1/3 of the total amount of the domestic production deduction claimed on your federal return pursuant to IRC § 199. For taxable years 2010 and thereafter, Virginia does not conform to the domestic production deduction allowed under IRC § 199. Instead of allowing this deduction to flow through, Virginia allows a deduction equal to two-thirds of the federal deduction.

If you chose to accept payment in installments, the gain from the installment received in the preceding year may be deducted. - Exemption for blind taxpayers or taxpayers age 65 and over;
- the Age Deduction; or
- You are claimed as a dependent on another taxpayer’s return.

To compute total annual family income you must compute the “Guideline Income” for each family member and add those amounts together.

Guideline Income is defined as federal adjusted gross income modified by the Virginia additions and qualifying Virginia subtractions that apply to full year residents.

After a worksheet below has been filled in for each person on your tax return, complete Schedule 760PY ADJ, Lines 10 - 17.

If you and your spouse file separate returns, only one spouse may claim the credit for low income. If qualified, both may claim their proportionate share of the Virginia Earned Income Tax Credit.

Family VAGI

If more room is needed, attach a schedule with the name, SSN and Guideline Income for each additional dependent.

Your Information

Enter your name, Social Security Number and Guideline Income. Filing Statuses 2, 3 and 4 must also complete Spouse’s information.

Your Spouse’s Information

Enter your spouse’s name, Social Security Number and Guideline Income.

All married taxpayers, regardless of filing jointly or separately, must complete this line.

Dependent(s) Information

Enter the name, and Social Security Number for each dependent claimed as an exemption on your return and, if any of your dependents had income, enter the Guideline Income for each dependent.

For Filing Status 3 (Married Filing Separately) also enter the name and Social Security Number of your dependents not claimed as an exemption on your return and, if any of the dependents had income, enter the Guideline Income for each dependent.

Line 10 - Enter Total Family Guideline Income

Total the Guideline Income Worksheet for each family member (each exemption reported and from any additional schedule attached).

Line 11 - Enter Total Number of Exemptions Listed above and on Any Attached Schedule.

Enter the total number of exemptions listed above and on any attached schedule.

Determine Eligibility for Credit for Low Income Individuals

Using the number on Line 11 as Eligible Exemptions, compare the dollar amount on Line 10 to the Poverty Guideline below. If the Line 10 amount is greater than the Guideline, you do not qualify for the credit for low income individuals. Continue to Line 14. If the Line 10 amount is less than or equal to the Guideline for the number of exemptions on Line 10, complete Line 14 through Line 17, Schedule 760PY ADJ.

Poverty Guideline Table

Eligible Exemptions	Poverty Guideline	Eligible Exemptions	Poverty Guideline
1	\$10,830	5	\$25,790
2	14,570	6	29,530
3	18,310	7	33,270
4	22,050	8*	37,010

*For each additional exemption add \$3,740.

Line 12 - Exemptions

If you are eligible based on the table above, enter the number of personal exemptions **from Form 760PY**.

Line 13 - Multiply

Multiply the number of exemptions reported on Line 12 by \$300. If you do not qualify for the Tax Credit for Low Income Individuals but claimed and Earned Income Credit on your federal return, enter \$0 on Line 13 and proceed to Line 14.

Line 14

Enter the amount of Earned Income Tax Credit (EITC) claimed on your federal return. If you did not claim an Earned Income Credit on your federal return, enter \$0. When a taxpayer using the married filing separately status computes the Virginia EITC, the taxpayer must first determine the proportion of the earned income that was used to qualify for the federal EITC. That proportion must then be multiplied by the total Virginia EITC, which is 20% of the federal EITC. The spouses may then claim their proportional share of the credit on their separate returns.

Line 15

Multiply Line 14 by 20% (.20).

Line 16

Enter the greater of Line 13 or 15.

Line 17 - Credit

Compare the amount of tax on Form 760PY, Line 19 to the amount on Schedule 760PY ADJ, Line 16. Enter the lower amount on Line 17. This is your Tax Credit. Also, enter this amount on Form 760PY, Line 23.

These credits are nonrefundable credits. A nonrefundable credit cannot exceed your tax liability. If you claim any credits on Form 760PY, Line 24 or Line 25, in addition to the low income credit or the Virginia Earned Income Credit, the sum of all nonrefundable credit claimed cannot exceed your tax liability on Form 760PY, Line 19.

Many low income individuals who work and have earned income under \$48,362 may also qualify for up to \$5,666 in Federal Earned Income Credit when filing their federal tax return!

Adjustments and Voluntary Contributions

Addition to Tax for Underpayment of Tax

Even if your return results in a refund, you may owe an "addition to tax" for underpaying your withholding or estimated tax. Virginia law requires that you pay your income tax in timely installments throughout the year by having income tax withheld or making payments of estimated tax. If you do not pay at least 90% of your tax in this manner, you may be charged an addition to tax.

There are four (quarterly) installment periods for determining whether you underpaid your tax for the year. If your taxable year is from January 1 through December 31, your quarterly payments are due May 3, June 15, September 15 and January 15 (of the following year). Underpayments are determined as of each installment due date, so an overpayment in one quarter cannot cancel out an underpayment for a previous quarter. The addition to tax does not apply if each payment is made on time and:

- the total tax paid through withholding and timely estimated tax payments is at least 90% (66 2/3% for farmers, fishermen or merchant seamen) of the current year's tax liability (after nonrefundable credits) or 100% of last year's tax liability (after nonrefundable credits);
- the sum of the quarterly underpayments for the year is \$150 or less; or
- you meet one of the exceptions computed on Form 760C or Form 760F.

Line 18 - Addition to Tax

Enter the amount of the addition to tax computed on Form 760C (for individuals, estates and trusts) or Form 760F (for farmers, fishermen or merchant seamen). If you underpaid your estimated income tax or had insufficient income tax withheld for the taxable year, you may owe the "addition to tax" computed on Form 760C or Form 760F.

Line 19 - Penalty

The due date for filing a calendar year return is May 2, and the automatic extension provisions apply to returns filed by November 1. Depending on when you file your return, you may be required to compute an extension penalty or a late filing penalty. For more information on due dates and penalty provisions, refer to When to File Your Return section in these instructions.

Extension penalty: If you file your return within six months after the due date and the amount of tax due with the return is more than 10 percent of your total tax liability, you must compute an extension penalty on the balance of tax due. The extension penalty is applied at the rate of two percent per month or part of a

month, from the due date through the date of filing. The maximum extension penalty is 12 percent of the tax due. Note: If you do not pay the tax in full when you file your return, a late payment penalty will be assessed at the rate of 6 percent per month or part of a month from the date the return is filed through the date the tax is paid, to a maximum of 30 percent. The late payment penalty is imposed in addition to the extension penalty.

Late filing penalty: If you file your return more than six months after the due date, no extension provisions apply, and you must compute a late filing penalty of 30 percent of the tax due with your return.

Line 20 - Interest

If you filed a tax due return after the filing date, you are liable for interest on the tax due amount on Form 760PY, Line 27, from the due date to the date filed or postmarked. To obtain the daily interest factor, please call (804)367-8031 or contact your locality.

Enter the amount on Schedule 760PY ADJ, Line 20.

Consumer's Use Tax and Contributions

Line 21 - Consumer's Use Tax

You will need to pay Consumer's Use Tax if, during the year, you purchased:

- merchandise by telephone, Internet, or television and no sales tax was charged
- merchandise while outside of Virginia and paid no sales tax
- more than \$100 in merchandise by mail and no sales tax was charged

The consumer's use tax is based on what you paid for the item ("cost price"). "Cost price" does not include separately stated shipping or delivery charges, but it does include a "shipping and handling" charge if listed as a combined item on the sales invoice. If the purchases were from out-of-state mail order catalog(s) and exceed \$100 or any amount from other sources, then you must report this and pay consumer's use tax on the **TOTAL** amount of *untaxed* purchases from **all** sources *during the calendar year*. Nonprescription drugs and proprietary medicines purchased for the cure, mitigation, treatment or prevention of diseases in human beings are exempt from the consumer's use tax.

The tax is 5% of the total cost price except for food purchased for home consumption. The tax rate on these food purchases is 2.5%.

You may enter the amount of the Consumer's Use Tax you owe on Schedule 760PY ADJ, Line 21 or file **Form CU-7** to pay the Consumer's Use Tax. If you enter your Consumer's Use Tax amount on your Schedule 760PY ADJ, do not file Form CU-7.

QUALIFYING AGE DEDUCTION

To compute your income based age deduction, use the **Age 65 and Older Income based Age Deduction Worksheet on the following page.**

Are you eligible to claim an age deduction?

For 2010, taxpayers born on or before January 1, 1946, may qualify to claim an age deduction based on birth date, filing status and income. A taxpayer who qualifies to claim an age deduction may **NOT** also claim either of the following:

- **Disability Subtraction**

If you qualify to claim an age deduction, you may not also claim a disability subtraction. For married taxpayers, each spouse, if eligible, may claim either an age deduction or a disability subtraction. You should claim the deduction or subtraction that gives you the greatest tax benefit.

- **Credit for Low Income Individuals or Virginia Earned Income Credit**

You may not claim both an age deduction and a Credit for Low Income Individuals or Virginia Earned Income Credit on the same tax return. In addition, for married taxpayers filing separate returns, if one spouse claimed a Credit for Low Income Individuals or Virginia Earned Income Credit, then neither spouse can claim an age deduction.

If you are not claiming a disability subtraction and you, or your spouse if you are married, are not claiming a credit for low income and your birth date is on or before January 1, 1946, please read the instructions below to determine if you qualify for an age deduction and the amount of the age deduction you may claim for 2010.

Taxpayers Age 65 and Older

If you, or your spouse if you are married, were **born on or before January 1, 1946**, you may qualify to claim an age deduction of up to \$12,000 each for 2010.

The age deduction you may claim will depend upon your birth date, filing status, and income.

If your birth date is:

- **On or before January 1, 1939**

Your age deduction is not income based. You may claim an age deduction of \$12,000. If you are married, each spouse born on or before January 1, 1939, may claim a \$12,000 age deduction. For a spouse born after January 1, 1939, the age deduction for that spouse is based on the criteria below.

Multiply the age deduction by the ratio amount from the Ratio Schedule on page 30 when computing the deduction amount. Enter the adjusted amount on Form 760PY, Line 4.

- **On or after January 2, 1939**

Your age deduction is based on your income. A taxpayer's income, for purposes of determining an **income based age deduction**, is the taxpayer's *adjusted federal adjusted gross income* or "AFAGI".

A taxpayer's AFAGI is the taxpayer's federal adjusted gross income, modified for any fixed date conformity adjustments, minus Social Security and Tier 1 Railroad Benefits.

- For Filing Status 1, Single taxpayer, the maximum allowable age deduction of \$12,000 is reduced \$1 for every \$1 the taxpayer's AFAGI exceeds \$50,000.
- For All Married Taxpayers, whether filing jointly or separately, the maximum allowable age deduction of \$12,000 each is reduced \$1 for every \$1 the married taxpayers' joint AFAGI exceeds \$75,000.

To compute your income based age deduction, use the **Age 65 and Older Income based Age Deduction Worksheet on the following page.**

Notice to ALL Married Taxpayers

A married taxpayer's **income based age deduction** is **always** determined using the married taxpayers' **joint AFAGI**. Regardless of whether you are filing jointly or separately, if you are married, your income based age deduction is determined using both your and your spouse's income.

In addition, if both spouses are claiming an **income based age deduction**, regardless of whether filing jointly or separately, the married taxpayers must compute a joint age deduction first and then allocate half the joint age deduction to each spouse.

CREDIT FOR TAX PAID TO ANOTHER STATE

Compute all credits for taxes paid to other states on Schedule OSC and enter the total credit claimed on Line 24 of Form 760PY.

Generally, Virginia will allow taxpayers filing resident individual income tax returns to claim credit for income tax paid as a nonresident to another state on earned or business income derived from sources outside Virginia or any gain (if included in federal adjusted gross income) on the sale of a capital asset outside Virginia, provided the income is taxed by Virginia as well as the other state.

Special Computation Involving States Bordering Virginia

You qualify for a special computation of the out-of-state tax credit for income tax paid to a state which borders Virginia if:

1. You are required to file an individual income tax return with Virginia and only one other state.
2. The other state for which you are claiming a credit is one of the following states which borders Virginia: Kentucky, Maryland, North Carolina or West Virginia.
3. Your only income from the border state was earned income on wages and salaries (generally wages and salaries from which you received a Form W-2 or Form 1099, etc.) or business income reported on federal Schedule C.
4. Your Virginia taxable income is equal to or more than the taxable income on the tax return filed with the other state.

If you meet all of these qualifications, fill in the border state oval and enter "100.0" in the Income Percentage field.

Line 1 - Filing Status

Enter the number listed below to identify the filing status claimed on the other state's tax return.

- | | |
|------------------------------|---------------------------|
| 1. Single | 2. Married Filing Jointly |
| 3. Married Filing Separately | 4. Other |

Line 2 - Claiming Credit

Enter the number listed below to identify the person claiming the credit.

- | | | |
|--------|-----------|-------------------|
| 1. You | 2. Spouse | 3. You and Spouse |
|--------|-----------|-------------------|

Line 3 - Qualifying Taxable Income

To be qualified, the income on this line must be included as taxable income on both the Virginia return and the other state's return. Enter the total taxable income from all of the following that apply to you to the extent that this income was taxed by the other state:

- Earned or business income derived from sources outside Virginia, which is subject to tax by Virginia as well as another state;
- Gain from the sale of a principal residence outside Virginia which was included in federal adjusted gross income;
- Gain from the sale of any capital asset not used in a trade or business.
- Corporation income tax paid to another state (one that does not recognize the federal S Corporation election), by an individual shareholder of an S Corporation. Attach a statement from the S Corporation.

In some states, the tax is computed on total taxable income (from all sources) and then reduced by an allocation percentage. In these cases, you must multiply the total taxable income shown on the other state's return by the allocation percentage in order to determine the amount of income to enter on this line.

If you were taxed as a nonresident of another state while a Virginia resident, enter the amount of qualifying taxable income that is derived from sources in the other state on Line 3. The only exception to this rule involves income on which you were taxed as a nonresident of **Arizona, California, District of Columbia or Oregon**.

If you are a Virginia resident who is a shareholder in an S Corporation that paid income tax to a state which imposes an income tax on the S Corporation and the fiscal year of the S Corporation ended while you were a Virginia resident, enter your share of the income subject to tax, as shown on the corporation income tax return filed with the other state.

Attach a copy of the return(s) from the other state(s).

Line 4 - Virginia Taxable Income Tax

Enter the Virginia taxable income from Line 17 of Form 760PY.

Line 5 - Qualifying Tax Owed to the Other State

Enter the amount of tax liability reflected on the return you filed with the other state. Enter the abbreviation of the other state in the space provided.

Line 6 - Identify the State

Enter the 2 character postal abbreviation for the other state.

Line 7 - Virginia Income Tax

Enter the amount from Form 760PY, Line 18. If you filed a joint return in the other state and you are using Filing Status 4 on your Virginia return, use the total from Columns A and B on Line 19.

Line 8 - Income Percentage

Divide Line 3 by Line 4. Compute the percentage to one decimal place. (For example, .3163 becomes 31.6%). If the result is greater than 100%, enter 100%. If the income from the other state is from Kentucky, Maryland, North Carolina or West Virginia, see "Special Computation Involving States Bordering Virginia" to determine the amount to enter on Line 8.

Line 9 - Virginia Ratio

Multiply Line 7 by Line 8.

Line 10 - Total

Enter the lesser of Line 5 or Line 9. Also enter on Form 760PY, Line 24.

Note: The sum of Schedule 760PY ADJ, Line 17 and Schedule OSC, Line 21 cannot exceed your tax liability. Lower the amount of this line if necessary to ensure sum does not exceed your tax liability.

Attach a complete copy of the state tax return filed in the state for which you claim the credit. Copies of Forms W-2, W-2G, 1099-R are not sufficient to verify payment of the tax to the other state.

If claiming more than one credit, continue to Line 11 of Schedule OSC and enter the total of all credits for taxes paid to other states on Line 21 and on Line 24 of Form 760PY.

TAX RATE SCHEDULE

IF YOUR VIRGINIA TAXABLE INCOME IS:

Not over \$3,000, your tax is 2% of your Virginia taxable income.

over—	but not over—	your tax is—	of excess over—
\$ 3,000	\$ 5,000	\$ 60 + 3 %	\$ 3,000
\$ 5,000	\$17,000	\$ 120 + 5 %	\$ 5,000
\$17,000		\$ 720 + 5.75 %	\$17,000

Example

If your taxable income is \$90,000, your tax is \$720 + 5.75% of the amount over \$17,000.
 This equals \$720 + (.0575 x \$73,000) = \$720 + \$4,197.50 = \$4,917.50 which should be rounded to **\$4,918.**
