Instructions for Form WTC

Virginia Worker Training Tax Credit Application

General Information

For taxable years beginning on and after January 1, 2019, but before July 1, 2025, businesses are allowed a tax credit for eligible worker training. **Eligible worker training** is the training of a qualified employee or non-highly compensated worker in the form of:

- **Credit or noncredit courses** at any institution recognized on the Eligible Training Provider List or at any Virginia public institution of higher education, as such term is defined in *Va. Code* § 23.1-100, or as described in *Va. Code* §§ 23.1-3111, 23.1-3115, 23.1-3120, and 23.1-3125, that results in the qualified employee or non-highly compensated worker receiving a workforce credential; or
- **Instruction or training that is part of an apprenticeship agreement** approved by the Virginia Department of Workforce Development and Advancement-Virginia Works.

The credit is equal to 35% of expenses incurred by the business during the taxable year for the eligible worker training. If the recipient of the training is a qualified employee, the credit cannot exceed \$500 per qualified employee annually. If the recipient of the training is a non-highly compensated worker, the credit cannot exceed \$1,000 per non-highly compensated worker annually.

For taxable years beginning on or after January 1, 2019, but before January 1, 2025, the Worker Training Credit may also be claimed by certain businesses primarily engaged in manufacturing. The businesses must conduct manufacturing-related orientation, instruction, and training programs in Virginia relating to the manufacturing activities of the taxpayer. To be eligible for the credit, the orientation, instruction, and training program must be approved by Virginia Department of Education (DOE) and must:

- (i) provide orientation, instruction, and training solely to students in grades 6-12;
- (ii) be coordinated with the local school division; and
- (iii) be conducted either at a plant or facility owned, leased, rented, or otherwise used by the business or at a public middle or high school in Virginia.

If claiming the credit on the basis of manufacturing-related orientation, instruction, and training programs, the credit is equal to 35% of the direct costs associated with the program, not to exceed \$2,000. Direct costs include:

- salaries or wages paid to instructors and trainers, prorated for the period of instruction or training;
- costs for orientation, instruction, and training materials;
- amounts paid for machinery and equipment used primarily for the instruction and training; and

- the cost of leased or rented space used primarily for conducting the program.

The total credit granted to all employers and businesses is limited to \$1 million for each fiscal year. If the total qualifying credits exceed this amount, the credit will be prorated. Employers and businesses must apply for their share of the available credit by filing Form WTC with the Department of Taxation to determine their proportionate share of the credit. Notification of the authorized credit amount must be received before the credit may be claimed on the tax return.

This credit is nonrefundable, but excess credit may be carried forward for the next 3 taxable years. No credit can be carried back to a preceding taxable year.

Applicability of the Credit

If claiming the credit on the basis of credit or **noncredit courses or apprenticeship programs**, the credit is allowable against individual income tax, estates and trusts tax, corporate income tax, bank franchise tax, insurance premiums license tax, and license tax on telegraph, telephone, water, heat, light, power, and pipeline companies.

If claiming the credit on the basis of **manufacturing-related orientation, instruction, and training programs**, the credit is allowable against individual and corporation income tax.
